### SUMMARY

Junior Software Developer in training with hands-on experience from an intensive 12-week Digital Skills Bootcamp in Software Development. Skilled in front-end technologies including HTML, CSS, JavaScript, and React, with additional knowledge of Python, SQL, and version control using Git/GitHub. Developed a portfolio of projects showcasing problem-solving, attention to detail, and the ability to build clean, user-friendly applications.

With a background in retail, I bring strong communication, teamwork, and problem-solving skills, alongside a proven ability to stay motivated and complete tasks efficiently. Passionate about continuous learning and eager to apply my technical skills to real-world challenges, I am now seeking a Junior Developer, Software Apprenticeship, or Front-End Developer role where I can grow professionally while contributing value to the team.

### EXPERIENCE

#### Inventory and Fulfilment Intern

##### Baati UK

📅 01/2025 - Present   📍 Leicester, UK

- Managed and updated inventory databases using digital stock management systems, improving accuracy and efficiency of warehouse operations.
- Utilized barcode scanners and warehouse software to track shipments, demonstrating attention to detail and tech proficiency.
- Analyzed stock levels and prepared reports, applying data handling and organizational skills transferable to software development projects.

#### Software Developer Bootcamp

##### Just IT Training Ltd

📅 08/2024 - 10/2024   📍 London, UK

- Built and deployed responsive web applications using HTML, CSS, JavaScript, React, Node.js, and SQL.
- Completed projects ahead of deadlines, demonstrating motivation, problem-solving, and version control (Git/GitHub) skills.
- Gained teamwork and communication experience through collaborative coding exercises and code reviews.

#### Sales Assistant

##### John Lewis & Partners

📅 11/2023 - 12/2023   📍 Leicester, UK

- Utilized retail technology systems including POS systems, stock management software, and digital sales dashboards to track performance and manage inventory efficiently.
- Used retail technology systems (POS, stock management, sales dashboards) to support operations.
- Developed analytical thinking, attention to detail, and customer-focused problem-solving skills.

### EDUCATION

#### BTEC IT National Diploma

##### WQE

📍 Leicester, UK

#### GCSEs

##### Babington Academy

📍 Leicester, UK

### KEY ACHIEVEMENTS

- + Built functional full-stack Project**  
Using HTML, CSS, JavaScript, React, Python, and SQL, demonstrating the ability to deliver functional, user-friendly applications.
- + Consistent Motivation & Project Delivery**  
Maintained high motivation and focus, completing all Bootcamp assignments and personal projects ahead of deadlines.
- + Effective Communication & Team Collaboration**  
Built strong communication and teamwork skills, collaborating effectively with colleagues to achieve targets and resolve challenges.

### SKILLS

Software Design Principles		Databases	
Data Structures	Debugging	Python	
HTML	CSS	JavaScript	SQL
Node.js	APIs	Adaptability	
Strong Communication		Teamwork	
Attention to Details		Time-Management	
Motivation		Problem-Solving	

### COURSES

#### FreeCodeCamp Certifications

- Responsive Web Design
- JavaScript Algorithms & Data Structures
- Front-End Development Libraries
- Back-End Development & APIs

#### Just IT Certificate

Completed a 12 week intensive boot camp course in 2023
